AUTHOR'S NOTE:

Replacing the motto designed over 100 years ago for the then newly established Hahnemann Medical College, Hahnemann's new motto was adopted in 1982, shortly after the Institution had received University status on August 11, 1981. The new motto reflects Hahnemann University's mission—the major spheres of endeavor being higher education, health care, research, and community service.

The motto reads, in Latin and English, as follows: "*Eruditio artis* [teaching of an expertise in science and in other areas of higher learning], *Medicinae* [the healing arts], *Cura animarum* [intellectual activity or pursuits; concern with vital human needs and interests]."

Iqbal F. Paroo

*President And
Chief Executive Officer*

Dear Graduates of the Class of 1993:

Please accept my heartfelt congratulations to you on the successful completion of your chosen course of study in the School of Health Sciences and Humanities. I hope that you will apply the outstanding education that you have received here to set rewarding, challenging, and meaningful goals in your career as a health care professional; those accomplishments will reflect positively on you, on those who have taught and trained you, and on Hahnemann University.

As you pursue those goals, remember the vision and the values of Hahnemann University. We, in turn, will remember the contribution each of you has made to this institution and will look forward to following your future achievements with pride.

Sincerely,

A handwritten signature in dark ink, appearing to read 'I. Paroo', written in a cursive style.

Iqbal F. Paroo
President

In Memorium

Ms. Heidi H. Huntley, member of the Class of 1993 of the Physician Assistant Program, succumbed after a protracted illness on June 5, 1992. Heidi came to the Hahnemann Physician Assistant Program after a successful career in physical therapy in her home state of Massachusetts. Heidi was a most popular member of her class and earned the respect and admiration of her classmates. She possessed a multitude of fine attributes including thoughtfulness, respect for everyone, and a profound willingness to help anyone whom she could. Heidi will be most remembered for her determination to overcome even apparently insurmountable obstacles to achieve success. The health care profession and Hahnemann University have been diminished with her passing.

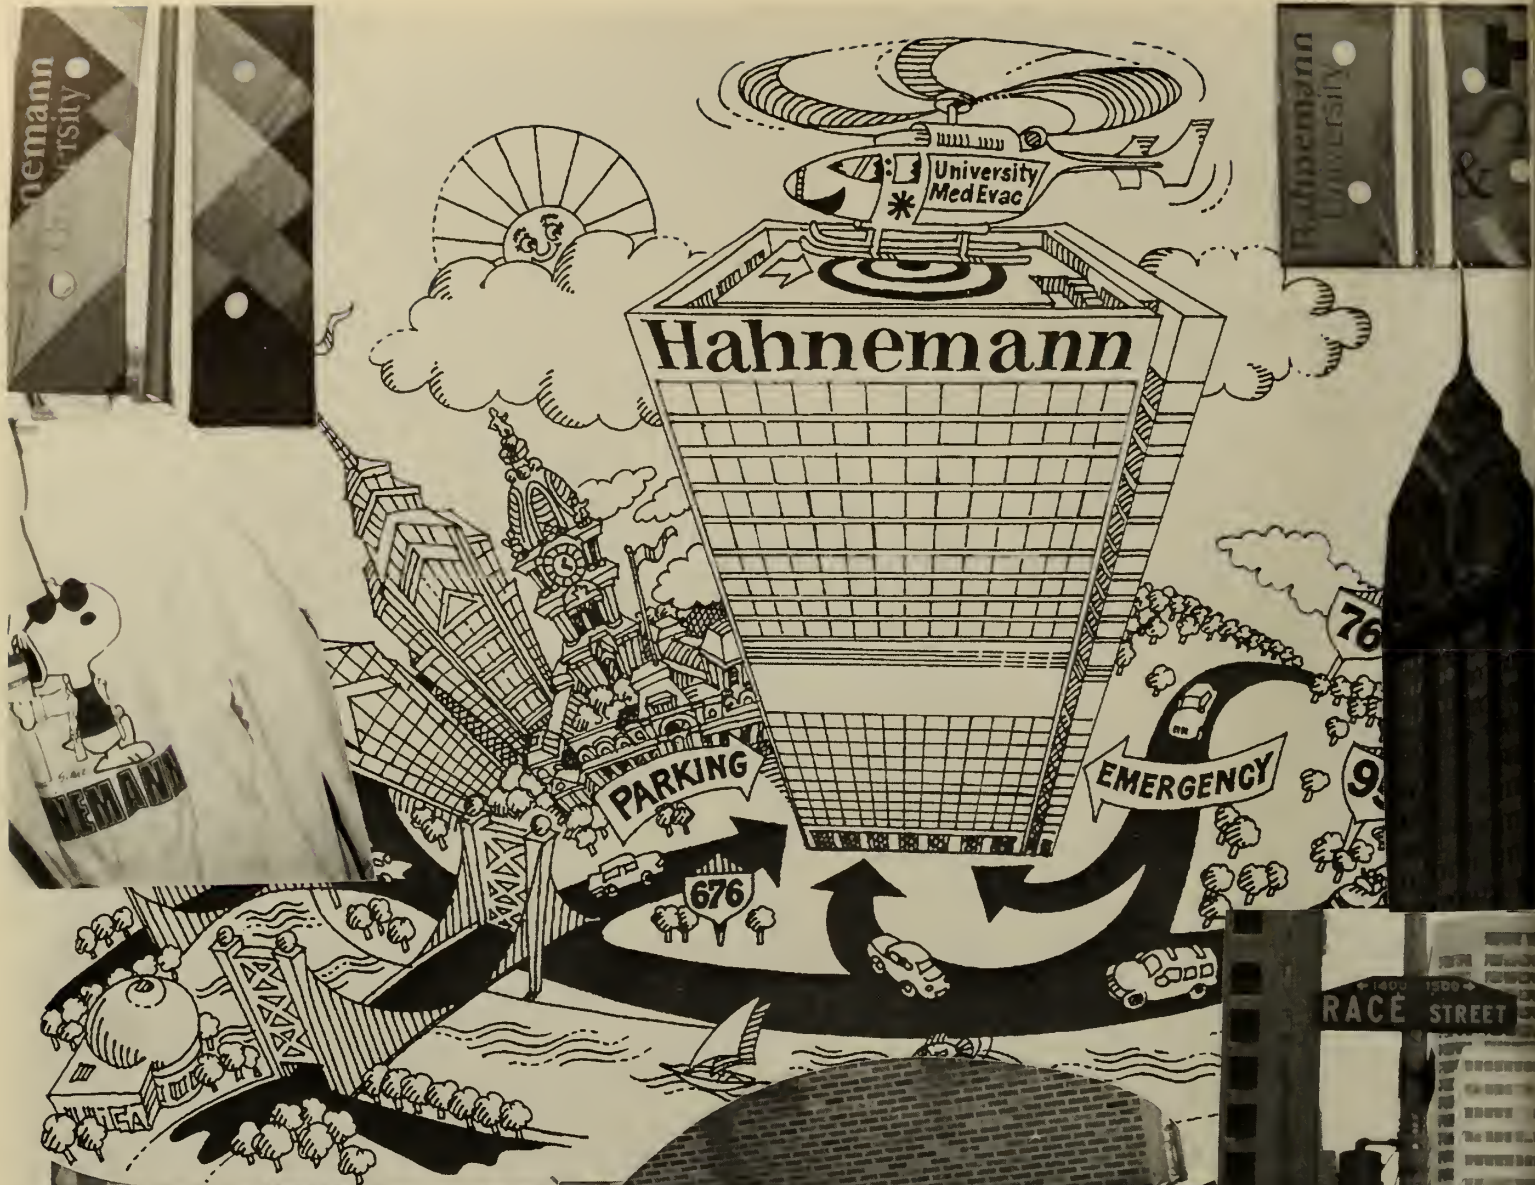

Ms. Heidi H. Huntley

LOVE

We do not receive wisdom, we must discover it for ourselves, after a journey through the wilderness which no-one else can make for us, which no-one can spare us, for our wisdom is the point of view from which we come at last to regard the world.
